## **Keep Heart** 2 Hour Seminar **Fulfilling Our Duty To Freedom In Challenging Times**

Like you, we've been feeling some concern for the future of Liberty. Upon consideration and discussion, we decided that it is wise to take steps to build up and reinforce the basis of Freedom.

LTF focuses on teaching the reality, this is to say the Self-Evident Truth, or innate, discoverable real nature of Liberty. Our thinking is very simple; the better we as citizens understand our Freedom the better we can use it. We are decided that this right use helps keep Liberty in the world.

The people will need to instruct the political leaders of the future. In our republic, an amount of belief and trust is invested in the individual members of society to know what is right and best.

We find it enjoyable to fulfill our duty to our Liberty by strengthening our understanding of how to be Liberty-True, meaning people who use their Freedom in suitable ways.

Come and see what you can do to help keep Freedom alive!

## **Choose To Be Valuable**

**Seminar Offered  
By The  
Liberty-True Fellowship**

**2-3 Hour Seminar**

The purpose of LTF's Choose To Be Valuable seminar format is to offer response to the many cultural trends that may lead persons towards negative self-comprehension.

Too many parents are having great anxiety over their children's attraction to destructive entertainment, dress, social outlet, diet, vernacular and visions. The choice to be valuable builds a basis for all that a person can absorb that is of value, from character attributes to awareness of responsibility and a healthy sense of humor.
